Ozona Systems

Outspan: intelligent navigation wherever you explore.

Product: Outspan, for iPhone and iPhone Duo
What it does: plans multi-day trips and checks the route for flash floods, wildfires, road closures, storms and tides. Turn-by-turn, hikes and jeep roads, with maps saved for no signal and Lars, the assistant, suggesting stops.
Privacy: built with a privacy- and security-centric architecture.
Never sold, never used to train anyone’s model.
Status: beta, open now at ozona.systems
